COGNITIVE COACHING℠ - ADVANCED

About Cognitive Coaching℠
The mission of Cognitive Coaching℠ is to produce self-directed persons with the cognitive capacity for excellence both independently and as members of a community. Research indicates that teaching is a complex intellectual activity and that teachers who think at higher levels produce students who are higher achieving, more cooperative, and better problem solvers. It is the invisible skills of teaching, the thinking processes that underlie instructional decisions, which produce superior instruction. Cognitive Coaching℠ is a research-based model that capitalizes upon and enhances teachers’ cognitive processes. **Prerequisite: Completion of CC Foundation Seminar**
